## WORD OF WELCOME

Dear Colleagues,

We would hereby like to cordially invite you to our first common “*Essen-Tübingen PET/MRI Symposium*”, which is jointly organized by the University Hospitals of Essen and Tübingen. For our first joint symposium, we have chosen the title “*PET/MRI in oncology – present role and future directions*”, as we want to give an overview and update on the state-of-the-art knowledge in oncological PET/MRI imaging and provide an insight into new applications and emerging fields of research in hybrid oncological imaging.

With our new symposium format, we intend to establish a forum to clinical PET/MR users and like to emphasize interactive, moderated dialogues on recent to emerging applications, advanced image processing and image analysis as well as its significance in modern personalized medicine. The expert faculty comprises nuclear medicine physicians and radiologists who will engage in a series of lectures describing optimal imaging pathways for oncological diagnosis, follow-up and response assessment.

We are very happy to start a hopefully prosperous and fruitful tradition of annual joint meetings to provide a platform for discussions and active interaction of hybrid imagers all around Europe.

**We are looking forward to welcoming you in Tübingen in May of 2019.**

## SYMPOSIUM SCHEDULE

May 3<sup>rd</sup> (Friday)

**Topic 1: A new era in oncology:**

**Multiparametric imaging & multiscale concepts**

14:00–15:15

**Session 1: Introduction**

Welcome Notes

(Umutlu L., Herrmann K., la Fougère C., Nikolaou K.)

Introduction (Gillies R., Keynotespeaker)

15:15–15:45

*Coffee Break*

16:00–18:00

**Podium Discussion 1: Imaging in Oncology:**

**The Battle of Modalities** (Herrmann K. / Nikolaou K.)

pro PET/MR (Beer A.), pro PET/CT. (Hacker M.)

pro MR (Koh D.-M.)

Discussion

18:00

*Reception & Dinner*

May 4<sup>th</sup> (Saturday)

**Topic 2: Research Concepts & Best Practice**

09:00–10:30

**Session 2: Complex Imaging Protocols & Advanced Image Analysis** (Beyer T. / Quick H. H.)

New concepts in multimodal basic imaging research:  
What is possible? (Pichler B.)

New concepts in data analysis: How complex is too complex?  
(Maier-Hein K.H.)

New concepts for translation: Bringing next-generation imaging to the clinic  
(Weber W.)

10:30–11:00

*Coffee Break*

11:00–12:30

**Podium Discussion 2: How do we do it – and what do we do?** (Krause B.J. / Schönberg S.)

The Essen Experience (Umutlu L.)

The Tübingen Experience (Gatidis S.)

The Umeå Experience (Riklund K.)

12:30–13:30

*Lunch*

**Topic 3: Clinical applications & future directions of PET/MR in oncology**

13:30–14:00

**Session 3:**

**PET/MR in Oncology** (Antoch G. / la Fougère C.)

Prostate Imaging (Giesel F.)

Female Imaging (Grüneisen, J.)

Neuro-Oncology Imaging (Law I.)

Pediatric Oncological Imaging (Schäfer J.)

14:00-15:00

*Discussion / Feedback (Coffee & Cake)*
